

## Countries and flags

Teacher: Aleksandra Krzyżowska

Group: Mtylki 4-years

We, the little ones, know much about the countries that are involved in our project. We have prepared a puzzle with all the flags,

which we know where lies the country on the map and how far they are from Poland.

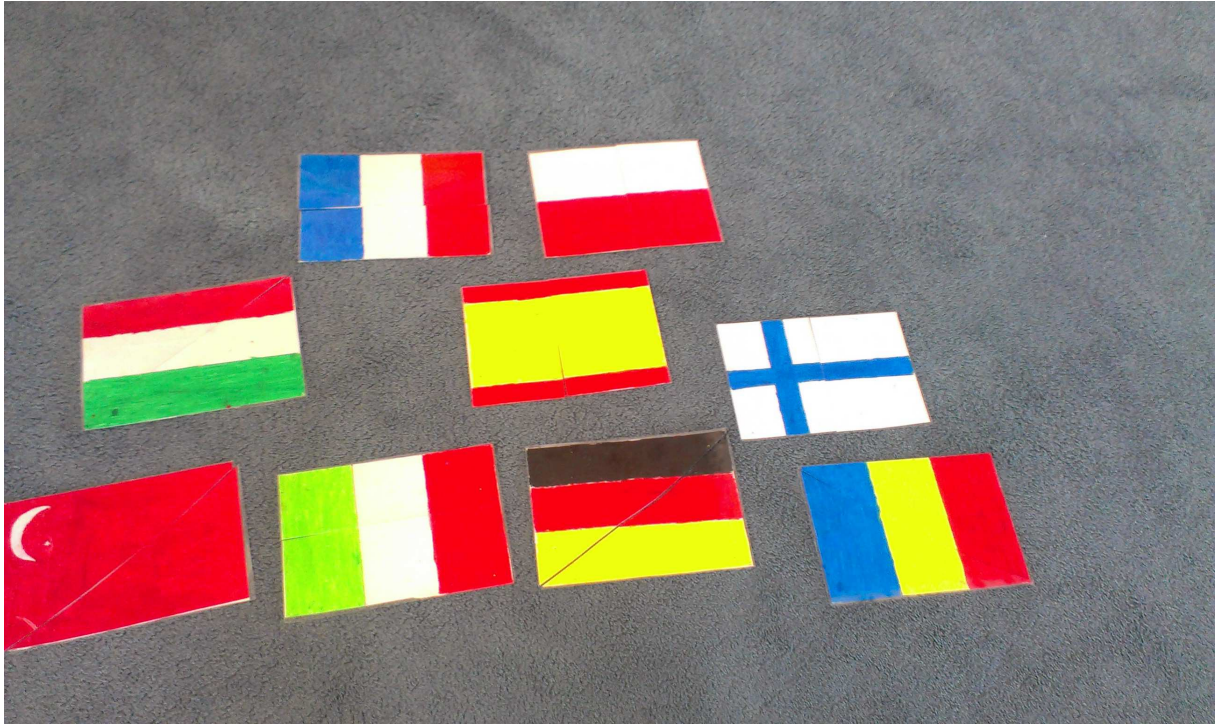

We had a lot of fun with that jigsaw puzzle.

It was important that we showed reflex during play.

We read short notices about each country and we tried to adjust their the flag to it.

It was a lot of fun and cool science.
