

DICTOGLOSS: LISTEN TO THE TEACHER AND COMPLETE

IBERIAN LYNX

TEXT FOR THE TEACHER

The teacher reads the text and the students write the key-data in the right place in the diagram. The teacher can provide scaffolding by writing the key-words scattered on the board.

H. The Iberian lynx lives in **Andalucía**. It lives in **forests** and **mountains**

B. It has got a **short tail**, leopard-like **spots** and **light grey or brownish-yellow fur**.

The Iberian lynx is **smaller than** the **northern** lynx.

F. It eats **rabbits, hares and rodents**.

R. A lynx can have **2 or 3 kittens**.

C. The lynx is in danger of extinction because of **change of habitat** and **few rabbits** surviving to illnesses.

This is an activity for 9-12 years old

Younger students: give the key information written on strips of paper; students have to glue the info in the right place on the diagram or use pictures representing the data instead of words.
