

What does the word (environment) make us think of?

We worked with 7th Class . Most of them are thirteen years old. Before we start I showed some examples of mindmap in English

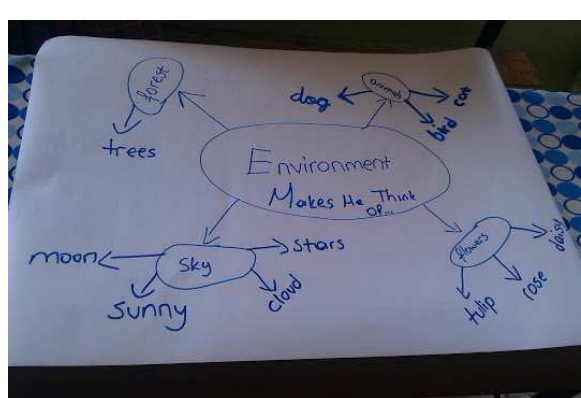

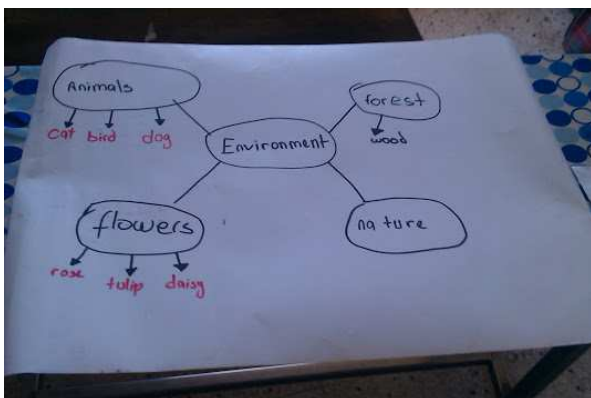

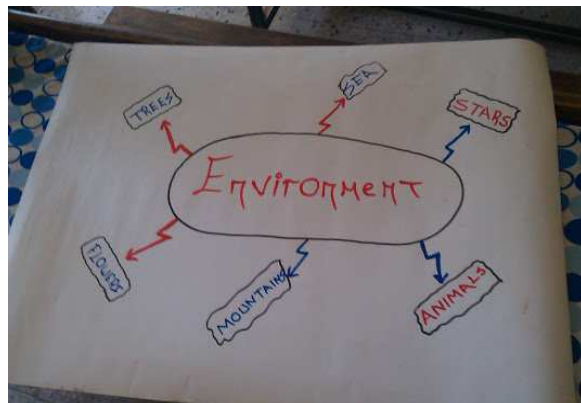

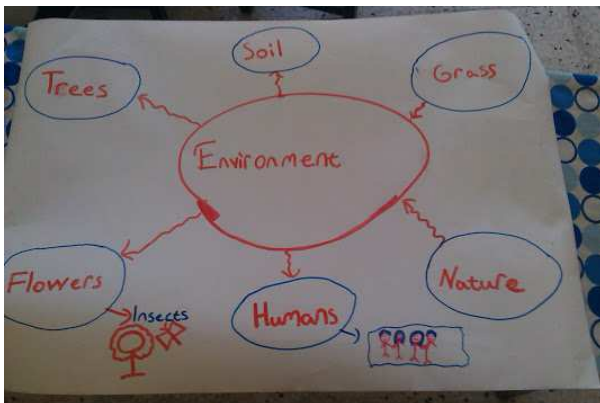

I asked them to get their clourful pens,pencils and boardmarkers. I gave them some big papers and they started to think about environment.We worked in groups. Three are four or five students in each groups.

After they finished their work .One of the students in each group show their work in front of the class and tell about what does the word environmet make them think of ?

We agreed about this work is best of the class . I gave them some presents because of their nice work.

Conclusion

Environment for my students

- Forest- trees-woods
- Soil
- Grass
- Sky- moon- stars-cloud-sunny
- Flowers- rose-tulip-daisy
- Animals-dog-bird-cat
- Nature
- Human
- Insects
- Sea
