

Water activities Pre-primary_Romania

1. We read the book “Raindrop Bill”, which was a beautiful story about the water cycle and it was very simple for children to understand it without any translation (the story is in calameo). Children played the role-play “Raindrop Bill” and repeated sentences in English language from story:
2. We drew the story and then each child made a booklet.

3. We have created a song with movement regarding to the story and water topic.

*This is the way the raindrops fall
The raindrops fall,
The raindrops fall,
This is the way the raindrops fall
Over the hills.
This is the way the spring roll over,
The spring roll over,
The spring roll over
This is the way the spring roll over
Into the river.
This is the way the river goes
The river goes
The river goes
This is the way the river goes
Between his shores.
This is the way the sea makes waves
the sea makes waves
The sea makes waves*

*The sea makes waves
This is the way the sea makes waves
All day long.*

4. We built boats and we've learnt the song "Row, row, row your boat", inserting a new verse with river from Romania, Olt.

*Row, row, row your boat
Down the river Olt,
Merrily merrily, merrily, merrily,
We paddle all together.*

4. While we watched on rivers from partner countries on Twinspace we have repeated their names through song.

e.g.

*Row, row, row your boat
Down the river Tanaro
Merrily, merrily, merrily, merrily
We paddle all in Italy.*
